Ms. Kaufman's great-grandfather started the recycle business one hundred thirty-nine years ago, she believes before there may have been zoning and prior to the construction of houses on Williams St. Her family has been good citizens for one hundred thirty-nine years, donating to many civic organizations, to include, the Elyria fountain, Rotary Club and Elyria High School. Ms. Kaufman shared the logistics of the location of the recycle business, as it sits next to train tracks and has industry on three of its four sides. She shared that she is uncertain that if it is not approved what would council have her to do with the property. She does not foresee a developer constructing new homes on the property. She expressed a new owner will provide greater value than an abandoned building.

Mr. Lipian inquired of Law Director Deery if the City of Elyria has a Brownfield Remediation Grant in the pipeline. Law Director Deery responded that she is not aware, however that does not mean Safety Service or Engineering may not be working on something or be aware. Mr. Lipian shared that his knowledge of the grant is that it could aid in the clean up of Blue Star and that perhaps before proceeding with the passage of legislation to re-zone, he is in favor of consideration to access the grant for cleanup. Law Director Deery provided direction that the grant process is between the owner of the property. The action before council is that the legislation before the members presented is a third reading. Should no action be taken, it will fail. Mr. Cerra provided a reminder that the City of Elyria had to purchase the General Industry site in an effort to qualify for the grant.

Mr. Farkas weighed in that the current zoning is a mix of light industrial and residential. He shared that the intent is to zone six to seven parcels to heavy industrial. Building Official read for the members the full understanding of what is allowable under the re-zoning of heavy industrial district.
