NOTICE
TO BID

Separate sealed bids will be received by the Mayor of the City of Elyria, Ohio in the Office of the Safety Service Director, City Hall Building, 3rd Floor, 131 Court Street, Suite 301, Elyria, Ohio 44035 until **2:00 p.m.** Local Time on **Thursday, March 5th, 2026**, at which time they will be opened and publicly read aloud for the purchase of **various chemicals for the Water Pumping Plant and the Water Reclamation Facility for the City of Elyria**. Said specifications are available in the Office of the Safety Service Directors, Attention: Chris Pyanowski, 131 Court Street, Suite 301, Elyria, Ohio 44035, (440) 326-1404, or on the City's website at www.cityofelyria.org.

Each bid must contain the full name of every person or company interested in same and must be accompanied by a bid guaranty. The bid guaranty must meet all requirements of Section 153.54 of the Ohio Revised Code and must be either a certified check or a cashier's check on a solvent bank in the amount equal to **ten percent (10%)** of the total bid price, or a bid guaranty with surety acceptable to the City of Elyria in the **full** amount of the bid as a guarantee that if said bid is accepted, the contract will be entered into and its performance properly secured. Check or bond furnished by the unsuccessful bidder(s) will be returned as soon as possible after a contract has been entered into by and with the successful bidder(s). Successful bidder(s) shall be **required** to have a **Performance Bond in the total amount of the contract**.

All bidders must comply with the provision of Chapter 167 of the Elyria Codified Ordinances as amended. Bidders must have been pre-certified or submit an acceptable Affirmative Action Plan with the bid submission. Prospective bidders may contact the City's Equal Opportunity Representative, Jean Yousefi, at (440) 326-1414 for information on pre-certification. No contract will be awarded unless the EEO Office reviews an acceptable Affirmative Action Plan, approved and incorporated into the contract. Each bidder must complete and sign the Elyria Equal Opportunity Clause, which is included with the specifications. The project specifications provide further details on State EEO and Affirmative Action requirements.

The City reserves the right to waive any technicalities, informalities or irregularities or to reject any or all bids received, and to accept any bid with any combination of alternatives which is deemed most favorable to the City of Elyria, Ohio at the time and under the conditions stipulated in the project documents.

Published by Order of: Kevin A. Brubaker, Mayor

INSTRUCTIONS TO BIDDERS

SPECIFICATIONS:

Bidders are advised to examine the Specifications, Notice to Bid, Instructions to Bidders, and any other pertinent documents, which are required to be filed with bid, in order that they may be fully informed as to the amount and nature of items to be furnished or purchased by the City of Elyria under this bid.

PROPOSAL:

EACH proposal shall be submitted in a **SEALED** envelope, addressed to the Mayor of the City of Elyria in care of the Safety Service Director at 131 Court Street, Suite 301, Elyria, Ohio 44035 and shall **bear the following:**

***NAME OF THE BIDDER
ADDRESS OF THE BIDDER
PROJECT BEING BID***

LATE PROPOSALS:

Absolutely no proposals will be received after **2:00 p.m., Local Time on Thursday, March 5th, 2026.**

NAME OF BIDDERS:

Each proposal must contain the full name and address of each person, firm or company interested therein. In the case of a partnership, the name and address of each partner must be stated. The said bid proposal submitted to the Office of the Safety Service Director must be signed by the Corporate or Individual name of the bidder. In the case of a corporation, the title of the officer signing must be stated. In the case of a partnership, the signature of at least one (1) of the partners must follow the name of the firm.

COMPETENCY OF BIDDER:

During a review of the bids, the Bidder shall furnish the City of Elyria, **upon request**, information and evidence satisfactory to the Mayor, that the Bidder has the necessary experience, ability, facilities, and financial resources to fulfill the conditions of the contract and specifications.

PROPOSAL WITHDRAWAL:

After a proposal has been deposited as above noted, no proposal shall be returned for any reason, nor will any modification of any proposal shall be accepted.

RIGHT TO ACCEPT OR REJECT PROPOSALS:

The City of Elyria reserves the right to reject any or all proposals, or parts thereof, to waive any informalities or irregularities in the bids/proposals received, and to accept any proposal which is deemed most favorable to the City of Elyria.

ACCEPTANCE OF PROPOSALS:

The City of Elyria reserves the right to accept proposals of any items within thirty (30) days after the same has been received as above noted.

CONTRACTS:

The contract shall be provided by the City of Elyria and will be submitted to the vendor who receives the award of the contract as soon as possible after the award has been made. The contract shall first be properly signed by the vendor and returned to the City of Elyria as further instructed by letter. After the City of Elyria fully executes the contract, an original contract will be returned to the vendor. The contract will represent the City's order for such item(s); however, a purchase order number will follow the contract at the vendor's request.

PERFORMANCE BOND:

The successful Bidder ***will be*** required to file a performance bond for the faithful performance of the contract in a sum not less than the total amount of the contract. Said bond to be that of a surety company acceptable to the Mayor, and the submittal of the bond will be decided upon by the Mayor or the Safety Service Director.

DELIVERY:

Delivery will be made to the Water Reclamation Facility and the Waterworks Plant according to the specifications.

SPECIAL NOTATION FOR CHEMICAL SPECIFICATIONS:

PLEASE INCLUDE IN YOUR PROPOSAL ONLY THE BID FORM(S) FOR THE CHEMICAL(S) ON WHICH YOUR COMPANY IS PROVIDING A BID. PLEASE DISCARD ALL OTHER PAPERWORK.

ORDINANCE NO. 2026- 4

AN ORDINANCE AUTHORIZING THE MAYOR TO ADVERTISE FOR BIDS AND ENTER INTO A CONTRACT FOR CHEMICALS FOR THE WATER PUMPING PLANT FOR YEARS 2026/2027, AND DECLARING AN EMERGENCY.

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF ELYRIA, STATE OF OHIO:

SECTION 1: That the Mayor be and hereby is authorized to advertise for bids and enter into a contract for chemicals for the Water Pumping Plant for years 2026 and 2027. Said agreements shall be in form and substance as approved by the Elyria City Law Director. The estimated quantities are as follows:

<u>CHEMICAL</u>	<u>QUANTITY</u>
Chlorine	116 tons
Orthophosphate	55 tons
Fluoride	55 tons
Potassium Permanganate	6 tons
PAC (Carbon)	45 tons
ACH	320 tons
Polymer	12,000 gallons

SECTION 2: That the expenditure referred to in Section 1 shall be paid from the Water Fund, Water Pumping Department, Operating and Maintenance Account.

SECTION 3: That it is found and determined that all formal actions of this Council concerning and relating to the passage of this Ordinance were taken in meetings open to the public, in compliance with Ohio law.

SECTION 4: That this Ordinance be and hereby is declared to be an emergency measure, the emergency being the current contracts for said chemicals are due to expire, and is necessary for the immediate preservation of the public peace, health, safety or welfare of the people of the City of Elyria; wherefore, provided the declaration of emergency receives the affirmative vote of three-fourths of all members of Council, this Ordinance shall be in full force and effect from and immediately after its passage and approval; otherwise, it shall take effect and be in force from and after the earliest period allowed by law.

ORDINANCE NO. 2026- 5

AN ORDINANCE AUTHORIZING THE MAYOR TO ADVERTISE FOR BIDS AND ENTER INTO A CONTRACT FOR CHEMICALS FOR THE WASTEWATER POLLUTION CONTROL (WWPC) PLANT/WATER RECLAMATION FACILITY FOR CHEMICALS FOR YEARS 2026/2027, AND DECLARING AN EMERGENCY.

BE IT ORDAINED BY THE COUNCIL OF THE CITY OF ELYRIA, STATE OF OHIO:

SECTION 1: That the Mayor be and hereby is authorized to advertise for bids and enter into a contract for chemicals for the WWPC Plant/Water Reclamation Facility for years 2026 and 2027. Said agreements shall be in form and substance as approved by the Elyria City Law Director. The estimated quantities are as follows:

<u>CHEMICAL</u>	<u>QUANTITY</u>
Ferric Chloride	350 dry tons
Sodium Hydroxide (caustic soda)	50 dry tons
Polymer (settling aid)	15,000 pounds
Polymer (sludge conditioning)	20,000 pounds
Sodium Hypochlorite	48 totes (16,000 gallons)

SECTION 2: That the expenditure referred to in Section 1 shall be paid from the WWPC Fund, WWPC Department, Operating and Maintenance Account.

SECTION 3: That it is found and determined that all formal actions of this Council concerning and relating to the passage of this Ordinance were taken in meetings open to the public, in compliance with Ohio law.

SECTION 4: That this Ordinance be and hereby is declared to be an emergency measure, the emergency being the current contracts for said chemicals are due to expire, and is necessary for the immediate preservation of the public peace, health, safety or welfare of the people of the City of Elyria; wherefore, provided the declaration of emergency receives the affirmative vote of three-fourths of all members of Council, this Ordinance shall be in full force and effect from and immediately after its passage and approval; otherwise, it shall take effect and be in force from and after the earliest period allowed by law.

Additional Information:

**City of Elyria, Ohio
Elyria Water Works
Pumping and Filtration Plant
SPECIFICATIONS FOR LIQUID BLENDED ORTHOPHOSPHATE**

ITEM TO BE PURCHASED FOR THE PERIOD OF APRIL 16, 2026 THROUGH APRIL 15, 2027.

The item to be purchased is liquid blended orthophosphate to be used as a corrosion inhibitor as required by the City of Elyria at the Elyria Water Works, 3628 West Erie Avenue, Lorain, Ohio 44053.

A. APPROXIMATE QUANTITY:

The total quantity of blended orthophosphate will be approximately fifty-five (55) tons. Thirty-seven tons has a volume of eight thousand five hundred thirty-four (8,534) gallons. Individual shipments shall not exceed three thousand (3,000) gallons, without express permission for the Water Pumping Plant Superintendent.

Exact quantities cannot now be determined but estimates are given above. Quantities listed may be increased or decreased to meet the requirements of plant operations during the above period. A minimum is not guaranteed.

B. DETAILED SPECIFICATIONS:

The orthophosphate supplied under this standard shall contain no soluble mineral or organic substances in quantities capable of producing deleterious or injurious effects upon the health of those consuming water that has been properly treated with phosphate.

The orthophosphate shall meet the latest standards of the National Standards Institute/National Sanitation Foundation (ANSI/NSF) Standard 60 and the latest standard AWWA B506-18 of the American Water Works Association (AWWA).

The blended orthophosphate shall have the following chemical and physical properties:

- | | |
|---|----------------------|
| • Phosphate as orthophosphate (PO ₄) | 36% |
| • Phosphate as metaphosphate (PO ₄) | less than 1% |
| • Phosphate as polyphosphate (PO ₄) | less than 1% |
| • Phosphate as (P ₂ O ₅) | 27% |
| • Zinc as (ZnO) | less than 0.01% |
| • Zinc (Zn) | less than 0.01% |
| • Sodium (Na) | less than 50,000 ppm |
| • Silicate (SiO ₂) | less than 1% |
| • Fluoride as (F) | less than 25,000 ppm |
| • Color | clear, water white |
| • Odor | none |
| • Specific Gravity | 1.22 |
| • Pounds per gallon | 10.2 |
| • Pounds P ₂ O ₅ per gallon | 2.75 |

The orthophosphate shall be shipped in a food grade tank truck dedicated to the product containing no residue of any chemical compounds or any substance other than the orthophosphate being supplied. The tanks shall be rubber lined or made of stainless steel or any other suitable material that will not be attacked by the acidity of the chemical.

Weight certificates of certified scales shall accompany the liquid orthophosphate shipments. All shipments of liquid orthophosphate shall comply with the Interstate Commerce Commission regulations for marking.

C. SAMPLING AND TESTING:

The successful bidder shall supply a sample and analysis of the product before delivery and upon request. All analyses shall be made in accordance with accepted methods. All costs associated with the sampling and analyses will be the responsibility of the successful bidder.

D. DELIVERY:

The bid price shall include delivery costs to the Elyria Water Works located at 3628 West Erie Avenue, Lorain, Ohio 44053. Delivery shall be as ordered by the Superintendent of the Elyria Water Works, or his representative, between the hours of 7:00 a.m. and 2:00 p.m., Monday through Friday (Holidays excepted).

The chemical supplier at no additional cost to the City of Elyria will furnish all hoses, pipes and fittings needed to transfer the liquid orthophosphate from the tank truck to the storage facilities.

The successful bidder shall indemnify and hold harmless the City of Elyria, its officials and employees from any and all causes of action, claims or suits which result from the acts or omissions of employees or agents of the City of Elyria, Ohio.

The successful bidder shall guarantee delivery of the chemical within the time period stipulated on the completed bid form. Notice of cancellation and/or rescheduling of deliveries by the successful bidder shall be made as soon as possible with the Elyria Water Works Superintendent, or his representative. The City of Elyria shall not be responsible for any delay resulting in a delay charge due to canceling and rescheduling deliveries by the successful bidder.

The City of Elyria shall not be responsible for any surcharges, such as for fuel price increases.

The successful bidder is advised not to make deliveries against purchase orders resulting from this bid until directed to do so by the Elyria Water Works Superintendent, or his representative.

E. CANCELLATION OF CONTRACT:

The City of Elyria shall have the right to cancel a contract at any time during the contractual period if the orthophosphate does not meet the chemical, physical or safety requirements of Standard 60 of the National Standards Institute/National Sanitation Foundation (ANSI/NSF), the latest standard of AWWA B506-18 of the American Water Works Association (AWWA), and the purchaser's supplementary specifications or delivery times of the chemical are not in accordance with the contract specifications and the successful bidder is given notice, in writing, of such deficiencies and is afforded reasonable time to comply with the provisions of the contract, but fails to do so.

F. DELAY FOR CAUSES BEYOND CONTROL:

If the successful bidder is delayed in compliance with the terms of the contract by strikes, lockout, fire, unusual delay by common carriers, unavoidable casualties or any cause beyond the successful bidder's control, including orders, limitations or restrictions of any government agency having jurisdiction over the subject matter of the contract or by delay authorized by the City of Elyria or by any cause for which the Plant Superintendent shall decide to justify the delay, then for all such delays and suspensions, the successful bidder shall be allowed a one calendar day extension beyond the time fixed for compliance with the terms of his contract for each and every calendar day of such delay so caused in the completion of the work, the same to be ascertained by the Plant Superintendent.

G. FAMILIARIZATION:

The bidder, prior to submitting a bid, shall carefully examine all bid documents, contracts, forms and all other available information, shall visit the site to conduct a thorough investigation of conditions and any and all equipment that may in any manner affect the use of the liquid orthophosphate, shall familiarize himself with federal, state and local laws, ordinances, rules and regulations which may in any way affect performance under this contract, shall carefully coordinate his observations with the requirements of the contract documents. The bidder's obligations hereunder shall include, but not be limited to, making such investigations as the bidder may deem necessary to determine his bid price. Permission to make such investigation of the property of the Elyria Water Works must first be obtained from the Safety Service Director of the City of Elyria.

H. BILLING:

The successful bidder shall submit an explanation of its billing method, including any calculations used to determine the billing quantity, for approval by the City. The unit bid price shall be used for billing unless another method is approved by the City of Elyria, at the request of the successful bidder. However, the method must be approved by the City of Elyria.

I. BID INQUIRIES:

All questions regarding this bid should be submitted in writing to the Elyria Safety Service Director. Every effort will be made to answer questions in an expeditious manner. As a result of these questions, if in the opinion of the Safety Service Director it is determined that some additional information must be furnished, it will be made available to all parties submitting a bid as an addendum to the bid documents. The City of Elyria will not be responsible for any instructions and/or opinions that are not in writing.

J. BID FORM:

Each bidder must submit a fully completed and appropriately signed bid form, attached herewith. Any and all calculations, where applicable, must accompany the bid form. Failure of any bidder to appropriately complete this form may serve as grounds for rejection of the bid.

The manufacturer shall supply an affidavit of compliance containing the following statement: "Guaranteed by (Name of Supplier) to meet the specifications of the National Standards Institute/National Sanitation Foundation (ANSI/NSF) Standard 60 for liquid blended orthophosphate, and the latest standard AWWA B506-18 of the American Water Works Association (AWWA)."

The unit bid price for this item shall be the net price per ton as supplied F.O.B. to the Elyria Water Works, 3628 West Erie Avenue, Lorain, Ohio 44053.

Each bidder shall submit with his bid the manufacturer's analyses of material to be furnished.

Each bidder shall submit with his bid, NSF 60 certification form and current AWWA standard certification.

Additional Information:

**Elyria Water Works
Pumping and Filtration Plant
SPECIFICATIONS FOR LIQUID CHLORINE**

ITEM TO BE PURCHASED FOR THE PERIOD OF APRIL 16, 2026 THROUGH APRIL 15, 2027.

The item to be purchased is commercial grade liquid chlorine for use as required by the City of Elyria at the Elyria Water Works, 3628 West Erie Avenue, Lorain, Ohio 44053.

A. APPROXIMATE QUANTITY:

It is estimated that one hundred sixteen (116) tons of liquid chlorine will be needed during the term of this contract; however exact quantities cannot now be determined. The quantities may be increased or decreased to meet the requirements of plant operations. A minimum is not guaranteed. Shipments shall be of six (6) to ten (10) tons per order.

B. DETAILED SPECIFICATIONS:

The chlorine shall be 99.5% pure by volume as obtained from vaporized liquid chlorine and suitable for the treatment of water, sewage and industrial wastes. The properties and shipping containers for the chlorine shall conform to the properties and standards defined by the AWWA Standard B301-18 for Liquid Chlorine as issued by the American Water Works Association (AWWA) and shall also meet the National Standards Institute/National Sanitation Foundation (ANSI/NSF) Standard 60.

C. SAMPLING AND TESTING:

The successful bidder shall supply an analysis of the product delivered upon request. All analyses shall be made in accordance with accepted methods. All costs associated with the sampling and analyses will be the responsibility of the successful bidder.

D. DELIVERY:

The chlorine to be supplied under the terms of any contract resulting from this bid will be delivered as ordered by the Superintendent of the Elyria Water Works, or his representative, on an as-needed basis at the stated bid price F.O.B. to the Elyria Water Works, 3628 West Erie Avenue, Lorain, Ohio 44053.

Deliveries will be accepted between the hours of 7:00 a.m. and 2:00 p.m., Monday through Friday (Holidays excepted). The chlorine shall be delivered in one (1) ton containers. Defective containers shall be returned to the point of shipment at the expense of the successful bidder.

The successful bidder shall indemnify and hold harmless the City of Elyria, its officials and employees from any and all causes of action, claims or suits which result from the acts or omissions of employees or agents of the City of Elyria, Ohio.

The successful bidder shall guarantee delivery of the chlorine within the time period stipulated on the completed bid form. Notice of cancellation and/or rescheduling of deliveries by the successful bidder shall be made as soon as possible with the Elyria Water Works Superintendent, or his representative. The City of Elyria shall not be responsible for any delay resulting in a delay charge due to canceling and rescheduling deliveries by the successful bidder.

The City of Elyria shall not be responsible for any surcharges, such as for fuel price increases.

The successful bidder is advised not to make deliveries against purchase orders resulting from this bid until directed to do so by the Elyria Water Works Superintendent, or his representative.

E. CANCELLATION OF CONTRACT:

The City of Elyria shall have the right to cancel a contract at any time during the contractual period if the chlorine or its container does not meet the chemical, physical or safety requirement of AWWA Standard B301-18 and Standard 60 of the National Standards Institute/National Sanitation Foundation (ANSI/NSF), the purchaser's supplementary specifications or delivery times of the chlorine are not in accordance with the contract specifications and the successful bidder is given notice, in writing, of such deficiencies and is afforded reasonable time to comply with the provisions of the contract, but fails to do so.

F. DELAY FOR CAUSES BEYOND CONTROL:

If the successful bidder is delayed in compliance with the terms of the contract by strikes, lockouts, fire, unusual delay by common carriers, unavoidable casualties or any cause beyond the successful bidder's control, including orders, limitations or restrictions of any government agency having jurisdiction over the subject matter of the contract or by delay authorized by the City of Elyria for any cause for which the Plant Superintendent shall decide to justify the delay, then for all such delays and suspensions, the successful bidder shall be allowed a one calendar day extension beyond the time fixed for compliance with the terms of his contract for each and every calendar day of such delay so caused in the completion of the work, the same to be ascertained by the Plant Superintendent.

G. FAMILIARIZATION:

The bidder, prior to submitting a bid, shall carefully examine all bid documents, contracts, forms and all other available information, shall visit the site to conduct a thorough investigation of conditions and any and all equipment that may in any manner affect the use of the chlorine, shall familiarize himself with Federal, State and local laws, ordinances, rules and regulations which may in any way affect performance under this contract, shall carefully coordinate his observations with the requirements of the contract documents. The bidder's obligations hereunder shall include, but not be limited to, making such investigations as the bidder may deem necessary to determine his bid price. Permission to make such investigation of the property of the Elyria Water Works must first be obtained from the Safety Service Director of the City of Elyria.

H. BILLING:

The successful bidder shall submit an explanation of its billing method, including any calculations used to determine the billing quantity, for approval by the City. The unit bid price shall be used for billing unless another method is approved by the City of Elyria at the request of the successful bidder.

I. BID INQUIRIES:

All questions regarding this bid should be submitted in writing to the Elyria Safety Service Director. Every effort will be made to answer questions in an expeditious manner. As a result of these questions, if in the opinion of the Safety Service Director it is determined that some additional information must be furnished, it will be made available to all parties submitting a bid

as an addendum to the bid documents. The City of Elyria will not be responsible for any instructions and/or opinions that are not in writing.

J. BID FORM:

Each bidder must submit a fully completed and appropriately signed bid form, attached herewith. Any and all calculations, where applicable, must accompany the bid form. Failure of any bidder to appropriately complete this form may serve as grounds for rejection of the bid.

The manufacturer shall supply an affidavit of compliance containing the following statement: "Guaranteed by (Name of Manufacturer) to meet the specifications of the National Standards Institute/National Sanitation Foundation (ANSI/NSF) Standard 60 for liquid chlorine, and latest Standard AWWA B301-18 of the American Water Works Association (AWWA)."

The unit price bid for this item shall be the net price per ton as supplied F.O.B. to the Elyria Water Works, 3628 West Erie Avenue, Lorain, Ohio 44053.

Each bidder shall submit with his bid the manufacturer's analyses of material to be furnished.

Each bidder shall submit with his bid, NSF 60 certification form and current AWWA Standard certification.

K. TRAINING:

Please include in your bid, two (2) training sessions, in person or virtual, to be held at the Elyria Water Works, on chlorine safety and handling and a brief description of the training.

**City of Elyria, Ohio
Elyria Water Works
Pumping and Filtration Plant
SPECIFICATIONS FOR POTASSIUM PERMANGANATE**

ITEM TO BE PURCHASED FOR THE PERIOD OF APRIL 16, 2026 THROUGH APRIL 15, 2027.

The item to be purchased is potassium permanganate for use as required by the City of Elyria at the Elyria Water Works, 3628 West Erie Avenue, Lorain, Ohio 44053.

A. APPROXIMATE QUANTITY:

Shipment will be made in one (1) or more lots loaded on non-deposit pallets and shall not exceed four (4) tons. Pallets must be compatible with hand pallet jack and loaded on the truck so that the opening are front to back.

Exact quantities cannot now be determined but estimates are given above. Quantities listed may be increased or decreased to meet the requirements of plant operations during the above period. A minimum is not guaranteed.

B. DETAILED SPECIFICATIONS:

The permanganate supplied under this standard shall be a free flowing grade containing no lumps. It shall contain not less than 97% KMnO_4 by weight.

It shall be shipped in non-returnable plastic drums approximately fifty-five (55) pounds each, net weight. The shipment shall be identified as to product, grade, assay, net weight, name of manufacturer and brand name. All markings shall conform to I.C.C. regulations.

The potassium permanganate supplied shall contain no impurities, organic or inorganic, in injurious quantities. An injurious quantity shall be defined as the minimum capable of producing ill effects on the health of those consuming water that has been treated properly with potassium permanganate.

The potassium permanganate shall not contain specific impurities in excess of the following limits (by weight): Cadmium – 100 mg/kg; Chromium – 500 mg/kg; Mercury – 20 mg/kg.

The entire amount of potassium permanganate furnished under this bid shall meet the latest Standard AWWA B603-23 of the American Water Works Association (AWWA) and ANSI/NSF Standard 60 of the National Sanitation Foundation (NSF), except as specified herein.

C. DELIVERY:

The successful bidder shall guarantee delivery of the chemical within the time period stipulated on the completed bid form.

Notice of cancellation and/or rescheduling of deliveries by the successful bidder shall be made as soon as possible with the Elyria Water Works Superintendent, or his representative. The City of Elyria shall not be responsible for any delay resulting in a delay charge due to canceling and rescheduling deliveries by the successful bidder.

The successful bidder shall indemnify and hold harmless the City of Elyria, its officials and employees from any and all causes of action, claims or suits which result from the acts or omissions of employees or agents of the City of Elyria, Ohio.

The City of Elyria shall not be responsible for any surcharges, such as for fuel price increases.

The successful bidder is advised not to make deliveries against purchase orders resulting from this bid until directed to do so by the Elyria Water Works Superintendent, or his representative.

D. CANCELLATION OF CONTRACT:

The City of Elyria shall have the right to cancel a contract at any time during the contractual period if the potassium permanganate does not meet the chemical, physical or safety requirement of AWWA Standard B603-16 and Standard 60 of the National Standards Institute/National Sanitation Foundation (ANSI/NSF), the purchaser's supplementary specifications or delivery times of the chemical are not in accordance with the contract specifications and the successful bidder is given notice, in writing, of such deficiencies and is afforded reasonable time to comply with the provisions of the contract, but fails to do so.

E. DELAY FOR CAUSES BEYOND CONTROL:

If the successful bidder is delayed in compliance with the terms of the contract by strikes, lockouts, fire, unusual day by common carriers, unavoidable casualties or any cause beyond the successful bidder's control, including orders, limitations or restrictions of any government agency having jurisdiction over the subject matter of the contract or by delay authorized by the City of Elyria or by any cause for which the Plant Superintendent shall decide to justify the delay, then for all such delays and suspensions, the successful bidder shall be allowed a one calendar day extension beyond the time fixed for compliance with the terms of his contract for each and every calendar day of such delay so caused in the completion of the work, the same to be ascertained by the Plant Superintendent.

F. FAMILIARIZATION:

The bidder, prior to submitting a bid, shall carefully examine all bid documents, contracts, forms and all other available information, shall familiarize himself with federal, state and local laws, ordinances, rules and regulations which may in any way affect performance under this contract, shall carefully coordinate his observations with the requirements of the contract documents. The bidder's obligations hereunder shall include, but not be limited to, making such investigations as the bidder may deem necessary to determine his bid price. Permission to make such investigation of the property of the Elyria Water Works must first be obtained from the Safety Service Director of the City of Elyria.

G. BILLING:

The successful bidder shall submit an explanation of its billing method, including any calculations used to determine the billing quantity, for approval by the City. The unit bid price shall be used for billing unless the City of Elyria, at the request of the successful bidder, approves another method.

H. BID INQUIRIES:

All questions regarding this bid should be submitted in writing to the Elyria Safety Service Director. Every effort will be made to answer questions in an expeditious manner. As a result of these questions, if in the opinion of the Safety Service Director it is determined that some additional information must be furnished, it will be made available to all parties submitting a bid as an addendum to the bid documents. The City of Elyria will not be responsible for any instructions and/or opinions that are not in writing.

I. BID FORM:

Each bidder must submit a fully completed and appropriately signed bid form, attached herewith. Any and all calculations, where applicable, must accompany the bid form. Failure of any bidder to appropriately complete this form may serve as grounds for rejection.

The manufacturer shall supply an affidavit of compliance containing the following statement: "Guaranteed by (Name of Manufacturer) to meet the specifications of the National Standards Institute/National Sanitation Foundation (ANSI/NSF) Standard 60 for liquid blended orthophosphate, and the latest Standard AWWA B603-16 of the American Water Works Association (AWWA)."

The unit price bid for this item shall be the net price per ton as supplied F.O.B. to the Elyria Water Works, 3628 West Erie Avenue, Lorain, Ohio 44053.

Additional Information:

**City of Elyria, Ohio
Elyria Water Works
Pumping and Filtration Plant
SPECIFICATIONS FOR ALUMINUM CHLOROHYDRATE (ACH)**

ITEM TO BE PURCHASED FOR THE PERIOD APRIL 16, 2026 THROUGH APRIL 15, 2027.

This standard covers aluminum chlorohydrate for use as required by the City of Elyria at the Elyria Water Works at 3628 West Erie Avenue, Lorain, Ohio 44053.

A. APPROXIMATE QUANTITY:

It is estimated that approximately 320 tons of ACH will be needed during the year. The aluminum chlorohydrate will be used primarily for coagulation of raw water at the Elyria Water Works. The amount of aluminum chlorohydrate used at the Elyria Water Works is based on the raw water quality and thus the amount used varies from year to year. The purchase of aluminum chlorohydrate cannot be guaranteed and will be subject to the demands at the Elyria Water Works. Shipments shall be made by bulk carrier in quantities of three (3) to four (4) thousand gallons.

B. DETAILED SPECIFICATIONS:

The aluminum chlorohydrate products are clear to hazy solutions, free of visible foreign matter or sediment. The specific gravity of the solution shall be in the range of 1.1 to 1.4.

The aluminum chlorohydrate supplied under these specifications shall contain no soluble mineral or organic substances in quantities capable of producing injurious or deleterious effects upon the health of those consuming the water or otherwise render the water unfit for public use when it has been treated properly with the aluminum chlorohydrate.

The aluminum chlorohydrate supplied under this contract shall be a powdered material meeting the specifications:

- 23 percent dry material expressed as ACH
- Specific gravity of no less than 1.3
- Contain 2.5 pounds of ACH per gallon of liquid or greater
- pH of product shall not exceed 6.0 nor be less than 2.0
- Contain no less than one (1) percent polymer blend

The entire amount of approximately 350 tons of aluminum chlorohydrate shall meet the latest Standards of the National Standards Institute/National Sanitation Foundation (ANSI/NSF) Standard 60, and American Water Works Association (AWWA) Standard AWWA B408-18 except as specified herein.

C. SAMPLING AND TESTING:

The successful bidder shall supply an analysis of the product delivered upon request. All analyses shall be made in accordance with accepted methods. All costs associated with the sampling and analyses will be the responsibility of the successful bidder.

D. DELIVERY:

The aluminum chlorohydrate furnished under these specifications shall be shipped in bulk hopper trucks. Weight certificates of certified scales shall accompany the shipments of ACH. All hoses, pipes and fittings needed to transfer ACH from the tank truck to the storage tank will be furnished by the chemical supplier at no additional cost to the City of Elyria.

Delivery shall be as ordered by the Superintendent of the Elyria Water Plant, or his representative, between the hours of 7:00 a.m. and 2:00 p.m., Monday through Friday (Holidays excepted).

The successful bidder shall indemnify and hold harmless the City of Elyria, its officials and employees from any and all causes of action, claims or suits which result from the acts or omissions of employees or agents of the City of Elyria, Ohio.

The successful bidder shall guarantee delivery of the chemical within the time period stipulated on the completed bid form. Notice of cancellation and/or rescheduling of deliveries by the successful bidder shall be made as soon as possible with the Elyria Water Works Superintendent, or his representative. The City of Elyria shall not be responsible for any delay resulting in a delay charge due to canceling and rescheduling deliveries by the successful bidder.

The City of Elyria shall not be responsible for any surcharges, such as for fuel price increases.

The successful bidder is advised not to make deliveries against purchase orders resulting from this bid until directed to do so by the Elyria Water Works Superintendent, or his representative.

E. CANCELLATION OF CONTRACT:

The City of Elyria shall have the right to cancel a contract at any time during the contractual period if the ACH or its container does not meet the chemical, physical or safety requirements of AWWA Standard B408-18 and Standard 60 of the National Standards Institute/National Sanitation Foundation (ANSI/NSF), the purchaser's supplementary specifications or delivery times of the chemical are not in accordance with the contract specifications and the successful bidder is given notice, in writing, of such deficiencies and is afforded reasonable time to comply with the provisions of the contract, but fails to do so.

F. DELAY FOR CAUSES BEYOND CONTROL:

If the successful bidder is delayed in compliance with the terms of the contract by strikes, lockouts, fire, unusual delay by common carriers, unavoidable casualties or any cause beyond the successful bidder's control, including orders, limitations or restrictions of any government agency having jurisdiction over the subject matter of the contract or by delay authorized by the City of Elyria or by any cause for which the Plant Superintendent shall decide to justify the delay, then for all such delays and suspensions, the successful bidder shall be allowed a one calendar day extension beyond the time fixed for compliance with the terms of his contract for each and every calendar day of such delay so caused in the completion of the work, the same to be ascertained by the Plant Superintendent.

G. FAMILIARIZATION:

The bidder, prior to submitting a bid, shall carefully examine all bid documents, contracts, forms and all other available information, shall familiarize himself with federal, state and local laws, ordinances, rules and regulations which may in any way affect performance under this contract, shall carefully coordinate his observations with the requirements of the contract documents. The bidder's obligations hereunder shall include, but not be limited to, making such investigations as the bidder may deem necessary to determine his bid price. Permission to make such investigation of the property of the Elyria Water Works must first be obtained from the Safety Service Director of the City of Elyria.

H. BILLING:

The successful bidder shall submit an explanation of its billing method, including any calculations used to determine the billing quantity, for approval by the City. The unit bid price shall be used for billing unless the City of Elyria, at the request of the successful bidder, approves another method.

I. BID INQUIRIES:

All questions regarding this bid should be submitted in writing to the Elyria Safety Service Director. Every effort will be made to answer questions in an expeditious manner. As a result of these questions, if in the opinion of the Safety Service Director it is determined that some additional information must be furnished, it will be made available to all parties submitting a bid as an addendum to the bid documents. The City of Elyria will not be responsible for any instructions and/or opinions that are not in writing.

J. BID FORM:

Each bidder must submit a fully completed and appropriately signed bid form, attached herewith. Any and all calculations, where applicable, must accompany the bid form. Failure of any bidder to appropriately complete this form may serve as grounds for rejection of the bid.

The manufacturer shall supply an affidavit of compliance containing the following statement: "Guaranteed by (Name of Manufacturer) to meet the specifications of the National Standards Institute/National Sanitation Foundation (ANSI/NSF) Standard 60 for aluminum chlorohydrate, and latest Standard AWWA B408-18 of the American Water Works Association (AWWA)."

The unit price bid for this item shall be the net price per ton as supplied F.O.B. to the Elyria Water Works, 3628 West Erie Avenue, Lorain, Ohio 44053.

Each bidder shall submit with his bid the manufacturer's analyses of material to be furnished.

Each bidder shall submit with his bid, NSF 60 certification form and current AWWA standard certification.

K. JAR TESTING PRIOR TO AWARD OF BID:

Prior to the award of the bid, the successful bidder shall be required to perform a series of jar tests at the Elyria Water Works demonstrating that the product performs as expected on the Elyria Water Plant's raw water. A number of tests (minimum of three) shall be conducted by the supplier or their representative in the presence of the Plant Superintendent and/or his representative to demonstrate the performance of said product.

The supplier shall also furnish sufficient chemical samples of the ACH to allow the Plant Superintendent or his representative to run independent jar tests to verify water quality results. Each bidder shall supply the City of Elyria at least two (2) liquid ounces of the product being bid and standard preparation directions for subsequent review and evaluation in the laboratory. Jar testing will be performed by the City of Elyria staff or its representative.

L. INFORMATION NEEDED PRIOR TO AWARDING THE BID:

The successful bidder shall furnish a complete chemical analysis of the ACH along with the product data sheet, SDS sheet and a list of water plants that use the supplier's ACH and their contact name and phone number.

**City of Elyria, Ohio
Elyria Water Works
Pumping and Filtration Plant
SPECIFICATIONS FOR SODIUM FLUOROSILICATE
(Formerly Sodium Silicofluoride)**

ITEMS TO BE PURCHASED FOR THE PERIOD OF APRIL 16, 2026 THROUGH APRIL 15, 2027.

The item to be purchased is sodium fluorosilicate (formerly sodium silicofluoride) for use as required by the City of Elyria at the Elyria Water Works, 3628 West Erie Avenue, Lorain, Ohio 44053.

A. APPROXIMATE QUANTITY:

It is estimated that approximately fifty-five (55) tons of sodium fluorosilicate will be needed. Shipment will be made in one lot, loaded on non-deposit pallets. The lot shall not exceed twenty (20) tons. Pallets must be compatible with hand pallet jack and loaded on the truck so that the opening are front to back.

Exact quantities cannot now be determined but estimates are given above. Quantities listed may be increased or decreased to meet the requirements of plant operations during the above period. A minimum is not guaranteed.

B. DETAILED SPECIFICATIONS:

The sodium fluorosilicate supplied under this standard shall be a dry material containing no lumps. The use of any type of synthetic detergent as an anti-caking agent shall not be permitted.

The sodium fluorosilicate must be granular and free-flowing. The shipment will be inspected prior to unloading the truck. If it does not meet specs, the shipment will be declined.

The sodium fluorosilicate shall contain not more than 0.5% by weight of insoluble matter. The sodium fluorosilicate shall contain not more than 0.05% by weight of heavy metals expressed as lead (Pb) and no other soluble mineral or organic substances in quantities capable of producing deleterious or injurious effect upon the health of those consuming water that has been treated properly with sodium fluorosilicate.

The sodium fluorosilicate shall contain a minimum of ninety-eight percent (98%) dry basis sodium fluorosilicate (Na_2SiF_6), which corresponds to approximately fifty nine and four-tenths percent (59.4%) fluoride.

The sodium fluorosilicate shall be shipped in multi-wall bags containing fifty (50) pounds \pm 2.5% net weight each.

The entire amount of approximately fifty-five (55) tons of sodium fluorosilicate shall meet the latest Standard AWWA B702-18 of the American Water Works Association (AWWA) and the National Standards Institute/National Sanitation Foundation (ANSI/NSF) Standard 60, and shall be free-flowing, including markings on the individual bags, except as specified herein.

C. SAMPLING AND TESTING:

The successful bidder shall supply an analysis of the product delivered upon request. All analyses shall be made in accordance with accepted methods. All costs associated with the sampling and analyses will be the responsibility of the successful bidder.

D. DELIVERY:

The bid price shall include delivery costs to the Elyria Water Works located at 3628 West Erie Avenue, Lorain, Ohio 44053. Delivery will be made between the hours of 7:00 a.m. and 2:00 p.m., Monday through Friday (Holidays excepted). **At least 48 hours' notice is required for delivery.**

One load shall contain not over twenty (20) tons without written permission from the City of Elyria.

The successful bidder shall guarantee delivery of the chemical within the time period stipulated on the completed bid form.

Notice of cancellation and/or rescheduling of deliveries by the successful bidder shall be made as soon as possible with the Elyria Water Works Superintendent, or his representative. The City of Elyria shall not be responsible for any delay resulting in a delay charge due to canceling and rescheduling deliveries by the successful bidder.

The City of Elyria shall not be responsible for any surcharges, such as for fuel price increases.

The successful bidder is advised not to make deliveries against purchase orders resulting from this bid until directed to do so by the Elyria Water Works Superintendent, or his representative.

E. CANCELLATION OF CONTRACT:

The City of Elyria shall have the right to cancel a contract at any time during the contractual period if the sodium fluorosilicate or its container does not meet the chemical, physical or safety requirements of AWWA Standard B702-18 and Standard 60 of the National Standards Institute/National Sanitation Foundation (ANSI/NSF), the purchaser's supplementary specifications or delivery times of the chemical are not in accordance with the contract specifications and the successful bidder is given notice, in writing, of such deficiencies and is afforded reasonable time to comply with the provisions of the contract, but fails to do so.

F. DELAY FOR CAUSES BEYOND CONTROL:

If the successful bidder is delayed in compliance with the terms of the contract by strikes, lockouts, fire, unusual delay by common carriers, unavoidable casualties or any cause beyond the successful bidder's control, including orders, limitations or restrictions of any government agency having jurisdiction over the subject matter of the contract or by delay authorized by the City of Elyria or by any cause for which the Plant Superintendent shall decide to justify the delay, then for all such delays and suspensions, the successful bidder shall be allowed a one calendar day extension beyond the time fixed for compliance with the terms of his contract for each and every calendar day of such delay so caused in the completion of the work, the same to be ascertained by the Plant Superintendent.

G. FAMILIARIZATION:

The bidder, prior to submitting a bid, shall carefully examine all bid documents, contracts, forms and all other available information, shall familiarize himself with federal, state and local laws, ordinances, rules and regulations which may in any way affect performance under this contract, shall carefully coordinate his observations with the requirements of the contract documents.

The bidder's obligations hereunder shall include, but not be limited to, making such investigations as the bidder may deem necessary to determine his bid price. Permission to make such investigation of the property of the Elyria Water Works must first be obtained from the Safety Service Director of the City of Elyria.

H. BILLING:

The successful bidder shall submit an explanation of its billing method, including any calculations used to determine the billing quantity, for approval by the City. The unit bid price shall be used for billing unless the City of Elyria, at the request of the successful bidder, approves another method.

I. BID INQUIRIES:

All questions regarding this bid should be submitted in writing to the Elyria Safety Service Director. Every effort will be made to answer questions in an expeditious manner. As a result of these questions, if in the opinion of the Safety Service Director it is determined that some additional information must be furnished, it will be made available to all parties submitting a bid as an addendum to the bid documents. The City of Elyria will not be responsible for any instructions and/or opinions that are not in writing.

J. BID FORM:

Each bidder must submit a fully completed and appropriately signed bid form, attached herewith. Any and all calculations, where applicable, must accompany the bid form. Failure of any bidder to appropriately complete this form may serve as grounds for rejection of the bid.

The manufacturer shall supply an affidavit of compliance containing the following statement: "Guaranteed by (Name of Manufacturer) to meet the specifications of the National Standards Institute/National Sanitation Foundation (ANSI/NSF) Standard 60 for Sodium Fluorosilicate, and latest AWWA Standard B702-18 for Sodium Fluorosilicate of the American Water Works Association (AWWA)."

The unit price bid for this item shall be the net price per ton as supplied F.O.B. to the Elyria Water Works, 3628 West Erie Avenue, Lorain, Ohio 44053.

Each bidder shall submit with his bid the manufacturer's analyses of material to be furnished.

Each bidder shall submit with his bid, NSF 60 certification form and AWWA standard certificate.

**City of Elyria, Ohio
Elyria Water Works
Pumping and Filtration Plant
SPECIFICATIONS FOR POWDERED ACTIVATED CARBON**

ITEM TO BE PURCHASED FOR THE PERIOD OF APRIL 16, 2026 THROUGH APRIL 15, 2027.

The item to be purchased is powdered activated carbon for use by the City of Elyria at the Elyria Water Works, 3628 West Erie Avenue, Lorain, Ohio 44053.

A. APPROXIMATE QUANTITY:

Shipment will be made in one lot and shall not exceed forty (40) tons. The powdered activated carbon will be used primarily for taste and odor control at the Elyria Water Works. The amount of carbon used at the Elyria Water Works is based on the raw water quality and thus the amount used varies from year to year. The purchase of the powdered activated carbon cannot be guaranteed and will be subject to the demands at the Elyria Water Works.

B. DETAILED SPECIFICATIONS:

Powdered activated carbon shall be shipped dry in a pneumatic delivery truck F.O.B. to the Elyria Water Works, 3628 West Erie Avenue, Lorain, Ohio 44053. Shipments will be accepted for unloading between 7:00 a.m. and 2:00 p.m., Monday through Friday (Holidays excepted). Shipments will be made as soon as practical after receipt of order and preferably within seven (7) working days after the order is placed.

Delivery trucks shall have the necessary coupling and connection pieces to properly unload the powdered activated carbon into an underground storage tank to be wetted with water supplied by the City. Powdered activated carbon shall be delivered in 40,000-pound shipments ready to unload once received at the Elyria Water Works. A shipping manifest shall accompany the delivery. One to three 40,000-pound deliveries shall be made per year, depending on powdered activated carbon usage in treatment production. Average carbon usage in 2024 was 55,000 pounds.

Powdered activated carbon shall have the specifications listed below:

- Made from bituminous-based coal
- Carbon activation process shall be either by high temperature thermal processes or by high temperature steam processes
- Iodine number 850 mg/g minimum
- Bulk density 30 lbs/ft³ minimum
- US sieve size 325 mesh 90 percent or greater
- Moisture (as packed) 8 percent maximum
- Contain a mesopore volume and a micropore volume of at least 30 percent each
- Be manufactured for adsorption of water-borne contaminants such as taste and odor, methylisoborneol (MIB), Geosmin, cyanotoxins, and total organic carbon (TOC) for use in municipal drinking water applications
- Comply with AWWA B600-16 Standard specification for powdered activated carbon
- Have current NSF/ANSI 60 certification of use in public drinking water production
- Be shipped with accompanying documentation outlining the actual product specifications as well as compliance with NSF certification

The entire amount of approximately forty (40) tons of powdered activated carbon shall meet the latest standards of the National Standards Institute/National Sanitation Foundation (ANSI/NSF) Standard 60, and American Water Works Association (AWWA) Standard AWWA B600-16 except as specified herein.

C. SAMPLING AND TESTING:

The successful bidder shall supply an analysis of the product delivered upon request. All analyses shall be made in accordance with accepted methods. All costs associated with the sampling and analyses will be the responsibility of the successful bidder.

D. DELIVERY:

The powdered activated carbon furnished under these specifications shall be shipped in bulk hopper trucks not to exceed 42,000 lbs. Weight certificates of certified scales shall accompany the bulk shipments of activated carbon. All hoses, pipes and fittings needed to transfer carbon from the tank truck to the storage facility will be furnished by the chemical supplier at no additional cost to the City of Elyria.

Delivery shall be as ordered by the Superintendent of the Elyria Water Works, or his representative, between the hours of 7:00 a.m., Monday through Friday (Holidays excepted).

The successful bidder shall indemnify and hold harmless the City of Elyria, its officials and employees from any and all causes of action, claims or suits which result from the acts or omissions of employees or agents of the City of Elyria, Ohio.

The successful bidder shall guarantee delivery of the chemical within the time period stipulated on the completed bid form. Notice of cancellation and/or rescheduling of deliveries by the successful bidder shall be made as soon as possible with the Elyria Water Works Superintendent, or his representative. The City of Elyria shall not be responsible for any delay resulting in a delay charge due to canceling and/or rescheduling deliveries by the successful bidder.

The City of Elyria shall not be responsible for any surcharges, such as for fuel price increases.

The successful bidder is advised not to make deliveries against purchase orders resulting from this bid until directed to do so by the Elyria Water Works Superintendent, or his representative.

E. CANCELLATION OF CONTACT:

The City of Elyria shall have the right to cancel a contract at any time during the contractual period if the powdered activated carbon or its container does not meet the chemical, physical or safety requirements of AWWA Standard B600-16 and Standard 60 of the National Standards Institute/National Sanitation Foundation (ANSI/NSF), the purchaser's supplementary specifications or delivery times of the chemical are not in accordance with the contract specifications and the successful bidder is given notice, in writing, of such deficiencies and is afforded reasonable time to comply with the provisions of the contract, but fails to do so.

F. DELAY FOR CAUSES BEYOND CONTROL:

If the successful bidder is delayed in compliance with the terms of the contract by strikes, lockouts, fire, unusual delay by common carriers, unavoidable casualties or any cause beyond the successful bidder's control, including orders, limitations or restrictions of any government

agency having jurisdiction over the subject matter of the contract or by delay authorized by the City of Elyria or by any cause for which the Plant Superintendent shall decide to justify the delay, then for all such delays and suspensions, the successful bidder shall be allowed a one calendar day extension beyond the time fixed for compliance with the terms of his contract for each and every calendar day of such delay so caused in the completion of the work, the same to be ascertained by the Plant Superintendent.

G. FAMILIARIZATION:

The bidder, prior to submitting a bid, shall carefully examine all bid documents, contracts, forms and all other available information, shall familiarize himself with federal, state and local laws, ordinances, rules and regulations which may in any way affect performance under this contract, shall carefully coordinate his observations with the requirements of the contract documents. The bidder's obligations hereunder shall include, but not be limited to, making such investigations as the bidder may deem necessary to determine his bid price. Permission to make such investigation of the property of the Elyria Water Works must first be obtained from the Safety Service Director of the City of Elyria.

H. BILLING:

The successful bidder shall submit an explanation of its billing method, including any calculations used to determine the billing quantity, for approval by the City. The unit bid price shall be used for billing unless the City of Elyria, at the request of the successful bidder, approves another method.

I. BID INQUIRIES:

All questions regarding this bid should be submitted in writing to the Elyria Safety Service Director. Every effort will be made to answer questions in an expeditious manner. As a result of these questions, if in the opinion of the Safety Service Director it is determined that some additional information must be furnished, it will be made available to all parties submitting a bid as an addendum to the bid documents. The City of Elyria will not be responsible for any instructions and/or opinions that are not in writing.

J. BID FORM:

Each bidder must submit a fully completed and appropriately signed bid form, attached herewith. Any and all calculations, where applicable, must accompany the bid form. Failure of any bidder to appropriately complete this form may serve as grounds for rejection of the bid.

The manufacturer shall supply an affidavit of compliance containing the following statement: "Guaranteed by (Name of Manufacturer) to meet the specifications of the National Standards Institute/National Sanitation Foundation (ASNI/NSF) Standard 60, and American Water Works Association (AWWA) Standard AWWA B600-16 for powdered activated carbon."

The unit price bid for this item shall be the net price per ton as supplied F.O.B. to the Elyria Water Works, 3628 West Erie Avenue, Lorain, Ohio 44053.

Each bidder shall submit with his bid the manufacturer's analyses of material to be furnished.

Each bidder shall submit with his bid, NSF 60 certification form and current AWWA standard certification.

Additional Information:

**City of Elyria, Ohio
Elyria Water Works
Pumping and Filtration Plant
SPECIFICATIONS FOR ANIONIC POLYMER (CENTRIFUGE)**

ITEM TO BE PURCHASED FOR THE PERIOD OF APRIL 16, 2026 THROUGH APRIL 15, 2027.

The item to be purchased is liquid polymer to be used as a dewatering agent for use in the centrifuge as required by the City of Elyria at the Elyria Water Works, 3628 West Erie Avenue, Lorain, Ohio 44053.

A. APPROXIMATE QUANTITY:

The total quantity of liquid polymer will be approximately 12,000 gallons. Polymer delivery is in the form of 250-350 gallon totes. Two (2) totes are ordered at a time.

Exact quantities cannot now be determined but estimates are given above. Quantities listed may be increased or decreased to meet the requirements of plant operations during the above period. A minimum is not guaranteed.

B. DETAILED SPECIFICATIONS:

The liquid polymer supplied under this standard shall contain no soluble mineral or organic substances in quantities capable of producing deleterious or injurious effects upon the health of those consuming water that has been properly treated with liquid polymer.

The liquid polymer shall meet the latest standards of the National Standards Institute/National Sanitation Foundation (ANSI/NSF) Standard 60, and latest Standard AWWA B453-19 of the American Water Works Association (AWWA).

The polymer shall be shipped in food grade totes dedicated to the product containing no residue of any chemical compounds or any substance other than the polymer being supplied.

Weight/capacity certificates shall accompany shipments. All shipments of liquid polymer shall comply with the Interstate Commerce Commission regulations for marking.

C. SAMPLING AND TESTING:

The successful bidder shall supply a sample and analysis of the product before delivery upon request. All analyses shall be made in accordance with accepted methods. All costs associated with the sampling and analyses will be the responsibility of the successful bidder. **If the proposed polymer has not been used in the Elyria Water Works Plant, jar tests and a real time test with the polymer must be run on water plant sludge at the plant prior to acceptance of the bid.**

D. DELIVERY:

The bid price shall include delivery costs to the Elyria Water Works located at 3628 West Erie Avenue, Lorain, Ohio 44053. Delivery shall be as ordered by the Superintendent of the Elyria Water Works, or his representative, between the hours of 7:00 a.m. and 2:00 p.m., Monday through Friday (Holidays excepted).

The successful bidder shall indemnify and hold harmless the City of Elyria, its officials and employees from any and all causes of action, claims or suits which result from the acts or omissions of employees or agents of the City of Elyria, Ohio.

The successful bidder shall guarantee delivery of the chemical within the time period stipulated on the completed bid form. Notice of cancellation and/or rescheduling of deliveries by the successful bidder shall be made as soon as possible with the Elyria Water Works Superintendent, or his representative. The city of Elyria shall not be responsible for any delay resulting in a delay charge due to canceling and rescheduling deliveries by the successful bidder.

The City of Elyria shall not be responsible for any surcharges, such as for fuel price increases.

The successful bidder is advised not to make deliveries against purchase orders resulting from this bid until directed to do so by the Elyria Water Works Superintendent, or his representative.

E. CANCELLATION OF CONTRACT:

The City of Elyria shall have the right to cancel a contract at any time during the contractual period if the polymer does not meet the chemical, physical or safety requirement of Standard 60 of the National Standards Institute/National Sanitation Foundation (ANSI/NSF), the latest Standard AWWA B453-19 of the American Water Works Association (AWWA), and the purchaser's supplementary specifications or delivery times of the chemical are not in accordance with the contract specifications and the successful bidder is given notice, in writing, of such deficiencies and is afforded reasonable time to comply with the provisions of the contract, but fails to do so.

F. DELAY FOR CAUSES BEYOND CONTROL:

If the successful bidder is delayed in compliance with the terms of the contract by strikes, lockouts, fire, unusual delay by common carriers, unavoidable casualties or any cause beyond the successful bidder's control, including orders, limitations or restrictions of any government agency having jurisdiction over the subject matter of the contract or by delay authorized by the City of Elyria or by any cause for which the Plant Superintendent shall decide to justify the delay, then for all such delays and suspensions, the successful bidder shall be allowed a one calendar day extension beyond the time fixed for compliance with the terms of his contract for each and every calendar day of such delay so caused in the completion of the work, the same to be ascertained by the Plant Superintendent.

G. FAMILIARIZATION:

The bidder, prior to submitting a bid, shall carefully examine all bid documents, contracts, forms and all other available information, shall visit the site to conduct a thorough investigation of the conditions and any and all equipment that may in any manner affect the use of the liquid polymer, shall familiarize himself with federal, state and local laws, ordinances, rules and regulations which may in any way affect performance under this contract, shall carefully coordinate his observations with the requirements of the contract documents. The bidder's obligations hereunder shall include, but not be limited to, making such investigations as the bidder may deem necessary to determine his bid price. Permission to make such investigation of the property of the Elyria Water Works must first be obtained from the Safety Service Director of the City of Elyria.

H. BILLING:

The successful bidder shall submit an explanation of its billing method, including any calculations used to determine the billing quantity, for approval by the City. The unit bid price shall be used for billing unless another method is approved by the City of Elyria, at the request of the successful bidder, approves another method.

I. BID INQUIRIES:

All questions regarding this bid should be submitted in writing to the Elyria Safety Service Director. Every effort will be made to answer questions in an expeditious manner. As a result of these questions, if in the opinion of the Safety Service Director it is determined that some additional information must be furnished, it will be made available to all parties submitting a bid as an addendum to the bid documents. The City of Elyria will not be responsible for any instructions and/or opinions that are not in writing.

J. TESTING PRIOR TO AWARD OF BID:

Prior to the award of the bid, the successful bidder shall be required to perform a series of tests at the Elyria Water Works demonstrating that the product performs as expected on the Elyria Water Works' sludge. Test shall be conducted by the supplier or their representative in the presence of the Plant Superintendent and/or his representative to demonstrate the performance of said product.

The supplier shall also furnish sufficient chemical samples of the polymer to allow the Plant Superintendent, or his representative, to run independent tests on a full scale trial on the centrifuge with plant sludge, to verify water quality results. Each bidder shall supply the City of Elyria at least a 55-gallon drum, at supplier's expense, of the product being bid and standard preparation directions for subsequent review and evaluation in the laboratory.

Tests/trials must be run prior to award of the bid, but within six (6) weeks of bid opening. Tests can be run prior to bidding, with approval of the Plant Superintendent.

K. BID FORM:

Each bidder must submit a fully completed and appropriately signed bid form, attached herewith. Any and all calculations, where applicable, must accompany the bid form. Failure of any bidder to appropriately complete this form may serve as grounds for rejection of the bid.

The manufacturer shall supply an affidavit of compliance containing the following statement: "Guaranteed by (Name of Manufacturer) to meet the specifications of the National Standards Institute/National Sanitation Foundation (ANSI/NSF) Standard 60 for liquid polymer, and latest Standard AWWA B453-13 of the American Water Works Association (AWWA)."

The unit price bid for this item shall be the net price per gallon (in totes) as supplied F.O.B. to the Elyria Water Works, 3628 West Erie Avenue, Lorain, Ohio 44053.

Each bidder shall submit with his bid the manufacturer's analyses of material to be furnished.

Each bidder shall submit with his bid, NSF 60 certification form and current AWWA standard certification.

City of Elyria, Ohio
Water Reclamation Facility
SPECIFICATIONS FOR LIQUID SODIUM HYPOCHLORITE

ITEM TO BE PURCHASED FOR THE PERIOD OF APRIL 16, 2026 THROUGH APRIL 15, 2027.

The item to be purchased is commercial grade liquid sodium hypochlorite (NaOCl) for use as required by the City of Elyria at the Elyria Water Reclamation Facility, 1194 Gulf Road, Elyria, Ohio 44035.

A. PURPOSE:

The sodium hypochlorite will be used to control growth of filamentous organisms in the activated sludge section at the Elyria Water Reclamation Facility.

B. APPROXIMATE QUANTITY:

It is estimated that forty-eight (48) totes of approximately 330 gallons each of liquid sodium hypochlorite will be required in the operation of the Elyria Water Reclamation Facility during the stated period.

Exact quantities cannot now be determined, but estimates are given above. Quantities listed may be increased or decreased to meet the requirements of plant operations during the above period. A minimum is not guaranteed.

C. DETAILED SPECIFICATIONS:

The sodium hypochlorite to be furnished shall be in aqueous solution and shall contain approximately twelve to fifteen percent (12 – 15%) sodium hypochlorite by weight and all of which shall be in solution. Other concentrations and grades may be bid for consideration, but the concentration and grade must be stated. It shall meet UL Certification for drinking water, or NSD/ANSI Standard 60, or AWWA Standard B300 or its latest revision of these standards.

D. SAMPLING AND TESTING:

Representative samples of the sodium hypochlorite solution shall be taken and analyzed by the successful bidder to determine the percentage by weight of sodium hypochlorite in solution. All analyses for the determination of the percentage of sodium hypochlorite in solution shall be made in accordance with accepted methods. All costs associated with the sampling and analyses will be the responsibility of the successful bidder. The basis for payment for the sodium hydroxide solution shall be in accordance with UL Certification for drinking water, or NSF/ANSI Standard 60, or AWWA Standard B300 or its latest revision of these standards. The analytical data shall be furnished with each load of sodium hypochlorite delivered.

The City may make analyses of the sodium hypochlorite delivered to determine conformance with the detailed specifications. In the event the sodium hypochlorite delivered does not meet the minimum requirements as set forth in the specifications, a credit will be due the City. Said credit will be determined by direct proportional method, and will apply to the entire shipment from which the sample was taken.

E. DELIVERY:

The sodium hypochlorite to be supplied under the terms of any contract resulting from this bid will be delivered as ordered by the Superintendent of the Elyria Water Reclamation Facility, or his representative, on an as-needed basis at the stated bid price F.O.B. to the Elyria Water Reclamation Facility, 1194 Gulf Road, Elyria, Ohio 44035.

Deliveries will be accepted between the hours of 7:00 a.m. and 1:00 p.m., Monday through Friday (Holidays excepted). The sodium hypochlorite shall be delivered in caged polypropylene totes which shall be capable of holding approximately 330 gallons of the sodium hypochlorite solution. Safety Data Sheets (SDS) shall be provided with the initial delivery, and anytime thereafter if there is a change in the sodium hypochlorite or the SDS.

The successful bidder shall indemnify and hold harmless the City of Elyria, its officials and employees from any and all causes of action, claims or suits which result from the acts or omissions of employees or agents of the City of Elyria, Ohio.

The successful bidder shall guarantee delivery of the sodium hypochlorite solution within the time they have stipulated on the completed bid form.

Notice of cancellation and/or rescheduling of deliveries by the successful bidder shall be made as soon as possible with the Elyria Water Reclamation Facility Superintendent, or his representative. The City of Elyria shall not be responsible for any delay resulting in a delay charge due to canceling and rescheduling deliveries by the successful bidder.

The City of Elyria shall not be responsible for any surcharges, such as for fuel price increases.

The successful bidder is advised not to make deliveries against purchase orders resulting from the bid until directed to do so by the Elyria Water Reclamation Facility Superintendent, or his representative.

F. CANCELLATION OF CONTRACT:

The City of Elyria shall have the right to cancel a contract at any time during the contractual period if the sodium hypochlorite life, sodium hypochlorite properties, or delivery time of the sodium hypochlorite are not in accordance with the contract specifications, and the successful bidder is given notice, in writing, of such deficiencies and is afforded reasonable time to comply with provisions of the contract, but fails to do so.

G. DELAY FOR CAUSES BEYOND CONTROL:

If the successful bidder is delayed in compliance with the terms of the contract by strikes, lockouts, fire, unusual delay by common carriers, unavoidable casualties, or any cause beyond the successful bidder's control, including orders, limitations or restrictions of any government agency having jurisdiction over the subject matter of the contract, or by delay authorized by the City of Elyria, or by any cause for which the Plant Superintendent shall decide to justify the delay, then for all such delays and suspensions, the successful bidder shall be allowed one calendar day extension beyond the time fixed for compliance with the terms of his contract for each and every calendar day of such delay so caused in the completion of the work, the same to be ascertained by the Plant Superintendent.

H. FAMILIARIZATION:

The bidder, before submitting a bid, shall carefully examine all bid documents, contract forms, and all other available information, may visit the site to make a thorough investigation of conditions and any and all equipment that may in any manner affect the use of the sodium hypochlorite; shall familiarize himself with federal, state, and local laws, ordinances, rules, and regulations, which may in any way affect his performance under this contract; shall carefully coordinate his observations with the requirements of the contract documents. The bidder's obligations hereunder shall include, but not be limited to, making such investigations as the bidder may deem necessary to determine his bid price. Permission to make such investigations on the property of the Elyria Water Reclamation Facility must first be obtained from the Safety Service Director of the City of Elyria.

I. BILLING:

For billing purposes, the unit bid price will be used unless the successful bidder requests another method. However, the method must be approved by the City of Elyria. There shall be no deposit fee on the totes/containers.

J. BID INQUIRIES:

All questions regarding this bid should be submitted in writing to the Elyria Safety Service Director. Every effort will be made to answer questions in an expeditious manner. As a result of these questions, if in the opinion of the Safety Service Director it is determined that some additional information must be furnished, it will be made available to all parties submitting a bid as an addendum to the bid documents. The City of Elyria will not be responsible for any instructions and/or opinions that are not in writing.

K. BID FORM:

Each bidder must submit a fully completed and appropriately signed bid form attached herewith. Any and all calculations, where applicable, must accompany the bid form. Failure of any bidder to appropriately complete this form may serve as grounds for the rejection of the bid.

The unit price bid for this item shall be the net price per gallon F.O.B. to the Elyria Water Reclamation Facility, 1194 Gulf Road, Elyria, Ohio 44035.

Each bidder shall submit with his bid the manufacturer's analyses of the material to be furnished.

Each bidder shall submit with his bid the Safety Data Sheets of the material to be furnished.

Additional Information:

City of Elyria, Ohio
Water Reclamation Facility
SPECIFICATIONS FOR FERRIC CHLORIDE

ITEM TO BE PURCHASED FOR THE PERIOD OF APRIL 16, 2026 THROUGH APRIL 15, 2027.

The item to be purchased is drinking water grade ferric chloride (FeCl_3) for use as required by the City of Elyria at the Elyria Water Reclamation Facility, 1194 Gulf Road, Elyria, Ohio 44035.

Alternate grades of ferric chloride will be considered for evaluation.

A. PURPOSE:

The ferric chloride will be used for phosphorous removal at the Elyria Water Reclamation Facility.

B. APPROXIMATE QUANTITY:

It is estimated that three hundred fifty (350) dry tons of ferric chloride will be required in the operation of the Elyria Water Reclamation Facility during the stated period.

Exact quantities cannot now be determined but estimates are given above. Quantities listed may be increased or decreased to meet the requirements of plant operations during the above period. A minimum is not guaranteed.

C. DETAILED SPECIFICATIONS:

The ferric chloride to be furnished shall be anhydrous ferric chloride in aqueous solution and shall contain no less than twenty-eight percent (28%) anhydrous ferric chloride (FeCl_3) by weight and all of which shall be in solution. The solution shall contain not more than two-tenths ($2/10$ or 0.2) of one percent (1%) of insoluble material. Material must pass through a 200-micro filter. The successful bidder, when necessary, shall make variations in the concentration of the ferric chloride in solution, in order to avoid difficulties arising from atmospheric changes in temperature.

D. SAMPLING AND TESTING:

Representative samples of the ferric chloride solution shall be taken and analyzed by the successful bidder to determine the percentage by weight of anhydrous ferric chloride in solution. All analyses for the determination of the percentage of anhydrous ferric chloride in solution shall be made in accordance with accepted methods. All costs associated with the sampling and analyses will be the responsibility of the successful bidder. The basis for payment for the ferric chloride solution shall be the amount by weight of anhydrous ferric chloride (FeCl_3) determined to be present by analyses described above. The analytical data shall be furnished with each load of ferric chloride delivered.

When requested, representative samples of each load of the ferric chloride delivered shall be provided to the City of Elyria. The City may make analyses of the ferric chloride delivered to determine conformance with the detailed specifications. In the event the ferric chloride delivered does not meet the minimum requirements as set forth in the specifications, a credit will be due the City. Said credit will be determined by direct proportional method, and will apply to the entire shipment from which the sample was taken.

E. DELIVERY:

The ferric chloride to be supplied under the terms of any contract resulting from this bid will be delivered as ordered by the Superintendent of the Elyria Water Reclamation Facility, or his representative, on an as-needed basis at the stated bid price F.O.B. to the Elyria Water Reclamation Facility, 1194 Gulf Road, Elyria, Ohio 44035.

Deliveries will be accepted between the hours of 7:00 a.m. and 1:00 p.m., Monday through Friday (Holidays excepted). The ferric chloride shall be delivered in tight rubber lined tank trucks which shall be capable of holding approximately 4,000 gallons of the ferric chloride solution, and shall be unloaded by the successful bidder at the Elyria Water Reclamation Facility. All hoses, pipes, valves, and other equipment needed for the purposes of loading, unloading, or inspections shall be furnished by the successful bidder at no additional cost to the City of Elyria, and shall be maintained in good workable condition. Tank trucks having leaks or defective equipment which make it difficult or impossible to draw off the solution when delivered shall be returned to the point of shipment at the expense of the successful bidder. Safety Data Sheets (SDS) shall be provided with the initial delivery, and any time thereafter if there is a change in the ferric chloride or the SDS.

The successful bidder shall indemnify and hold harmless the City of Elyria, its officials and employees from any and all causes of action, claims or suits which result from the acts or omissions of employees or agents of the City of Elyria, Ohio.

The delivery vehicle shall weigh in and out on the Elyria Water Reclamation Facility scale.

The successful bidder shall guarantee delivery of the ferric chloride solution within the time they have stipulated on the completed bid form.

Notice of cancellation and/or rescheduling of deliveries by the successful bidder shall be made as soon as possible with the Elyria Water Reclamation Facility Superintendent, or his representative. The City of Elyria shall not be responsible for any delay resulting in a delay charge due to canceling and rescheduling deliveries by the successful bidder.

The City of Elyria shall not be responsible for any surcharges, such as for fuel price increases.

The successful bidder is advised not to make deliveries against purchase orders resulting from the bid until directed to do so by the Elyria Water Reclamation Facility Superintendent, or his representative.

F. CANCELLATION OF CONTRACT:

The City of Elyria shall have the right to cancel a contract at any time during the contractual period if the ferric chloride life, ferric chloride properties, or delivery times of the ferric chloride are not in accordance with the contract specifications, and the successful bidder is given notice, in writing, of such deficiencies and is afforded reasonable time to comply with provisions of the contract, but fails to do so.

G. DELAY FOR CAUSES BEYOND CONTROL:

If the successful bidder is delayed in compliance with the terms of the contract by strikes, lockouts, fire, unusual delay by common carriers, unavoidable casualties, or any cause beyond the successful bidder's control, including orders, limitations or restrictions of any government agency having jurisdiction over the subject matter of the contract, or by delay authorized by the City of Elyria, or by any cause for which the Plant Superintendent shall decide to justify the delay, then for all such delays and suspensions, the successful bidder shall be allowed one calendar day extension beyond the time fixed for compliance with the terms of his contract for each and every calendar day of such delay so caused in the completion of the work, the same to be ascertained by the Plant Superintendent.

H. FAMILIARIZATION:

The bidder, before submitting a bid, shall carefully examine all bid documents, contract forms, and all other available information, may visit the site to make a thorough investigation of conditions and any and all equipment that may in any manner affect the use of the ferric chloride; shall familiarize himself with federal, state, and local laws, ordinances, rules, and regulations, which may in any way affect his performance under this contract; shall carefully coordinate his observations with the requirements of the contract documents. The bidder's obligations hereunder shall include, but not be limited to, making such investigations as the bidder may deem necessary to determine his bid price. Permission to make such investigations on the property of the Elyria Water Reclamation Facility must first be obtained from the Safety Service Director of the City of Elyria.

I. BILLING:

For billing purposes, the unit bid price will be used unless the successful bidder requests another method. However, the method must be approved by the City of Elyria.

J. BID INQUIRIES:

All questions regarding this bid should be submitted in writing to the Elyria Safety Service Director. Every effort will be made to answer questions in an expeditious manner. As a result of these questions, if in the opinion of the Safety Service Director it is determined that some additional information must be furnished, it will be made available to all parties submitting a bid as an addendum to the bid documents. The City of Elyria will not be responsible for any instructions and/or opinions that are not in writing.

K. BID FORM:

Each bidder must submit a fully completed and appropriately signed bid form attached herewith. Any and all calculations, where applicable, must accompany the bid form. Failure of any bidder to appropriately complete this form may serve as grounds for rejection of the bid.

The unit price bid for this item shall be the net price per dry ton F.O.B. to the Elyria Water Reclamation Facility, 1194 Gulf Road, Elyria, Ohio 44035.

Each bidder shall submit with his bid the manufacturer's analyses of the material to be furnished.

Each bidder shall submit with his bid the Safety Data Sheets of the material to be furnished.

SPECIFICATIONS FOR SODIUM HYDROXIDE (CAUSTIC SODA)

ITEM TO BE PURCHASED FOR THE PERIOD OF APRIL 16, 2026 THROUGH APRIL 15, 2027.

The item to be purchased is commercial grade sodium hydroxide (NaOH – Caustic Soda) for the use as required by the City of Elyria at the Elyria Water Reclamation Facility, 1194 Gulf Road, Elyria, Ohio 44035.

A. PURPOSE:

The sodium hydroxide will be used for pH adjustment at the Elyria Water Reclamation Facility.

B. APPROXIMATE QUANTITY:

It is estimated that fifty (50) dry tons of caustic soda will be required in the operation of the Elyria Water Reclamation Facility during the stated period.

Exact quantities cannot now be determined but estimates are given above. Quantities listed may be increased or decreased to meet the requirements of plant operations during the above period. A minimum is not guaranteed.

C. DETAILED SPECIFICATIONS:

The caustic soda to be furnished shall be anhydrous caustic soda in aqueous solution and shall contain approximately fifty percent (50%) sodium hydroxide (NaOH) by weight and all of which shall be in solution. Other concentrations and grades may be bid for consideration, but the concentration and grade must be stated. It shall meet AWWA Standard B501-19 or its latest revision. The successful bidder, when necessary, shall make variations in the concentration of the sodium hydroxide in solution, in order to avoid difficulties arising from atmospheric changes in temperature.

D. SAMPLING AND TESTING:

Representative samples of the sodium hydroxide solution shall be taken and analyzed by the successful bidder to determine the percentage by weight of sodium hydroxide in solution and total alkalinity as Na₂O. All analyses for the determination of the percentage of sodium hydroxide in solution and total alkalinity as Na₂O shall be made in accordance with accepted methods. All costs associated with the sampling and analyses will be the responsibility of the successful bidder. The basis for payment for the sodium hydroxide solution shall be in accordance with AWWA Standard B501-19 or its latest revision. The analytical data shall be furnished with each load of sodium hydroxide delivered.

When requested, representative samples of each load of the sodium hydroxide delivered shall be provided to the City of Elyria. The City may make analyses of the sodium hydroxide delivered to determine conformance with the detailed specifications. In the event the sodium hydroxide delivered does not meet the minimum requirements as set forth in the specifications, a credit will be due the City. Said credit will be determined by direct proportional method, and will apply to the entire shipment from which the sample was taken.

E. DELIVERY:

The sodium hydroxide to be supplied under the terms of any contract resulting from this bid will be delivered as ordered by the Superintendent of the Elyria Water Reclamation Facility, or his representative, on an as-needed basis at the stated bid price F.O.B. to the Elyria Water Reclamation Facility, 1194 Gulf Road, Elyria, Ohio 44035.

Deliveries will be accepted between the hours of 7:00 a.m. and 1:00 p.m., Monday through Friday (Holidays excepted). The sodium hydroxide shall be delivered in caged totes which shall be capable of holding approximately 330 gallons of the sodium hydroxide solution. Safety Data Sheets (SDS) shall be provided with the initial delivery, and anytime thereafter if there is change in the sodium hydroxide or the SDS.

The successful bidder shall indemnify and hold harmless the City of Elyria, its officials and employees from any and all causes of action, claims or suits which result from the acts or omissions of employees or agents of the City of Elyria, Ohio.

The successful bidder shall guarantee delivery of the sodium hydroxide solution within the time they have stipulated on the completed bid form.

Notice of cancellation and/or rescheduling of deliveries by the successful bidder shall be made as soon as possible with the Elyria Water Reclamation Facility Superintendent, or his representative. The City of Elyria shall not be responsible for any delay resulting in a delay charge due to canceling and rescheduling deliveries by the successful bidder.

The City of Elyria shall not be responsible for any surcharges, such as for fuel price increases.

The successful bidder is advised not to make deliveries against purchase orders resulting from the bid until directed to do so by the Elyria Water Reclamation Facility Superintendent, or his representative.

F. CANCELLATION OF CONTRACT:

The City of Elyria shall have the right to cancel a contract at any time during the contractual period if the sodium hydroxide life, sodium hydroxide properties, or delivery times of the sodium hydroxide are not in accordance with the contract specifications, and the successful bidder is given notice, in writing, of such deficiencies and is afforded reasonable time to comply with the provisions of the contract, but fails to do so.

G. DELAY FOR CAUSES BEYOND CONTROL:

If the successful bidder is delayed in compliance with the terms of the contract by strikes, lockouts, fire, unusual delay by common carriers, unavoidable casualties, or any cause beyond the successful bidder's control, including orders, limitations or restrictions of any government agency having jurisdiction over the subject matter of the contract, or by delay authorized by the City of Elyria, or by any cause for which the Plant Superintendent shall decide to justify the delay, then for all such delays and suspensions, the successful bidder shall be allowed one calendar day extension beyond the time fixed for compliance with the terms of his contract for each and every calendar day of such delay so caused in the completion of the work, the same to be ascertained by the Plant Superintendent.

H. FAMILIARIZATION:

The bidder, before submitting a bid, shall carefully examine all bid documents, contract forms, and all other available information, may visit the site to make a thorough investigation of conditions and any and all equipment that may in any manner affect the use of the sodium hydroxide; shall familiarize himself with federal, state, and local laws, ordinances, rules, and regulations, which may in any way affect his performance under this contract; shall carefully coordinate his observations with the requirements of the contract documents. The bidder's obligations hereunder shall include, but not be limited to, making such investigations as the bidder may deem necessary to determine his bid price. Permission to make such investigations on the property of the Elyria Reclamation Facility must first be obtained from the Safety Service Director of the City of Elyria.

I. BILLING:

For billing purposes, the unit dib price will be used unless the successful bidder requests another method. However, the method must be approved by the City of Elyria.

J. BID INQUIRIES:

All questions regarding this bid should be submitted in writing to the Elyria Safety Service Director. Every effort will be made to answer questions in an expeditious manner. As a result of these questions, if in the opinion of the Safety Service Director it is determined that some additional information must be furnished, it will be made available to all parties submitting a bid as an addendum to the bid documents. The City of Elyria will not be responsible for any instructions and/or opinions that are not in writing.

K. BID FORM:

Each bidder must submit a fully completed and appropriately signed bid form attached herewith. Any and all calculations, where applicable, must accompany the bid form. Failure of any bidder to appropriately complete this form may serve as grounds for rejection of the bid.

The unit price bid for this item shall be the net price per dry ton F.O.B. to the Elyria Water Reclamation Facility, 1194 Gulf Road, Elyria, Ohio 44035.

Each bidder shall submit with his bid the manufacturer's analyses of the material to be furnished.

Each bidder shall submit with his bid the Safety Data Sheets of the material to be furnished.

Additional Information:

City of Elyria, Ohio
Water Reclamation Facility
SPECIFICATIONS FOR ORGANIC POLYELECTROLYTES
(POLYMER) FOR SETTLING AID

ITEM TO BE PURCHASED FOR THE PERIOD OF APRIL 16, 2026 THROUGH APRIL 15, 2027.

The item to be purchased is an organic polyelectrolyte (polymer) for use as required by the City of Elyria Water Reclamation Facility, 1194 Gulf Road, Elyria, Ohio 44035.

A. PURPOSE:

The organic polyelectrolyte (polymer) will be used as an additive to improve the clarification and settling ability of the mixed liquor solids associated with nitrifying activated sludge fine bubble aeration system at the Elyria Water Reclamation Facility, 1194 Gulf Road, Elyria, Ohio 44035.

B. APPROXIMATE QUANTITY:

It is estimated that 15,000 pounds of polymer will be required in the operation of the Elyria Water Reclamation Facility during the stated period.

Exact quantities cannot now be determined but estimates are given above. Quantities listed may be increased or decreased to meet the requirements of plant operations during the above period. A minimum is not guaranteed.

C. GENERAL INFORMATION:

The Elyria Water Reclamation Facility is equipped for using polymer in dry as well as in liquid form; however, presently the plant intends to use only dry polymer. The polymer feed system includes a bag feeder, a liquid polymer storage tank, a wetting device, a mixing and aging tank, and polymer pumps.

D. DETAILED SPECIFICATIONS:

The polymer is normally applied to the nitrified mixed liquor after it leaves the aeration tanks and a short distance upstream of the final settling tanks. All metal salts are applied to the plant flow stream prior to final settling.

The polymer is needed as an aid for meeting the following effluent limitations:

<u>PARAMETER:</u>	<u>MONTHLY:</u>	<u>WEEKLY:</u>
Suspended Solids (mg/L)	20.0	30.0
Ammonia (measured as N – mg/L)		
Summer	1.1	1.7
Winter	8.0	5.3
CBOD (mg/L)		
Summer	10.0	15.0
Winter	15.0	23.0

The criteria for operating the secondary treatment are as follows:

Flow	10 MGD
Return Sludge	5-17 MGD
MLSS	2,500-3,500 mg/L
SVI	100-150
CRT	5-10/day

E. BID EVALUATION:

The City of Elyria shall be the sole judge of whether the polymer to be supplied by the bidder meets the specific needs of the Elyria Water Reclamation Facility, and shall evaluate qualified bids on the basis of cost and compatibility. The City of Elyria reserves the right to accept or reject any or all bids. Only one (1) polymer shall be bid.

Representative samples of sludge will be furnished for bench testing. Tests can be conducted at the Elyria Water Reclamation Facility Laboratory; however, bidders should bring their own specialized testing equipment.

The bidder with the best bid in the City's opinion, prior to the award of the contract, will be initially requested to supply, at the expense of the Bidder, a small quantity (up to five bags each; weighing fifty to sixty (50-60) pounds) of polymer. The initial shipment will be used by the City to evaluate its effectiveness.

The City of Elyria at its option, may call the next best bidder to demonstrate the effectiveness of their polymer.

F. DELIVERY:

The polymer to be supplied under the terms of any contract resulting from this bid will be delivered as ordered by the Superintendent of the Elyria Water Reclamation Facility, or his representative, on an as-needed basis at the stated bid price F.O.B. to the Elyria Water Reclamation Facility, 1194 Gulf Road, Elyria, Ohio 44035.

Deliveries will be accepted between the hours of 7:00 a.m. and 1:00 p.m., Monday through Friday (Holidays excepted). The polymer shall be delivered in fifty to sixty (50-60) pound bags and shall be unloaded by the successful bidder at the Elyria Water Reclamation Facility Chemical Storage and Feed Building. Safety Data Sheets (SDS) shall be provided with the initial delivery and any time thereafter if there is a change in the polymer or the SDS.

The successful bidder shall indemnify and hold harmless the City of Elyria, its officials and employees from any and all causes of action, claims or suits which result from the acts or omissions of employees or agents of the City of Elyria, Ohio.

The successful bidder shall guarantee delivery of the polymer within the time they have stipulated on the completed bid form.

Notice of cancellation and/or rescheduling of deliveries by the successful bidder shall be made as soon as possible with the Elyria Water Reclamation Facility Superintendent, or his representative. The City of Elyria shall not be responsible for any delay resulting in a delay charge due to canceling and rescheduling deliveries by the successful bidder.

The City of Elyria shall not be responsible for any surcharges, such as for fuel price increases.

The successful bidder is advised not to make deliveries against purchase orders resulting from this bid until directed to do so by the Elyria Water Reclamation Facility Superintendent, or his representative.

G. PRODUCT LIFE:

The organic polyelectrolyte (polymer) dry form shall remain in a uniform, stable condition for a minimum of six (6) months.

H. CANCELLATION OF CONTRACT:

The City of Elyria shall have the right to cancel a contract at any time during the contractual period if the polymer properties, polymer life, or delivery times of the polymer are not in accordance with the contract specifications, and the successful bidder is given notice in writing of such deficiencies and is afforded reasonable time to comply with the provisions of the contract, but fails to do so.

I. DELAY FOR CAUSES BEYOND CONTROL:

If the successful bidder is delayed in compliance with the terms of the contract by strikes, lockouts, fire, unusual delay by common carriers, unavoidable casualties, or any cause beyond the successful bidder's control, including orders, limitations or restrictions of any government agency having jurisdiction over the subject matter of the contract, or by delay authorized by the City of Elyria or by any cause for which the Plant Superintendent shall decide to justify the day, then for all such delays and suspension, the successful bidder shall be allowed one calendar day extension beyond the time fixed for compliance with the terms of his contract for each and every calendar day of such delay so caused in the completion of the work, the same to be ascertained by the Plant Superintendent.

J. FAMILIARIZATION:

The bidder, before submitting a bid, shall carefully examine all bid documents, contract forms, and all other available information; may visit the site to make a thorough investigation of conditions and any and all equipment that may in any manner affect the use of the polymer; shall familiarize himself with federal, state, and local laws, ordinances, rules and regulations, which may in any way affect his performance under this contract; shall carefully coordinate his observations with the requirements of the contract documents. The bidder's obligations hereunder shall include, but not be limited to, making such investigations as the bidder may deem necessary to determine his bid price. Permission to make such investigations on the property of the Elyria Water Reclamation Facility must first be obtained from the Safety Service Director of the City of Elyria.

K. BILLING:

For billing purposes, the unit bid price will be used unless the successful bidder requests another method. However, the method must be approved by the City of Elyria.

L. BID INQUIRIES:

All questions regarding this bid should be submitted in writing to the Elyria Safety Service Director. Every effort will be made to answer questions in an expeditious manner. As a result of these questions, if in the opinion of the Safety Service Director it is determined that some additional information must be furnished, it will be made available to all parties submitting a bid as an addendum to the bid documents. The City of Elyria will not be responsible for any instructions and/or opinions that are not in writing.

M. BID FORM:

Each bidder must submit a fully completed and appropriately signed bid form attached herewith. Any and all calculations, where applicable, must accompany the bid form. Failure of any bidder to appropriately complete this form, may serve as grounds for rejection of the bid.

The unit price bid for this item shall be the net price per dry pound F.O.B. to the Elyria Water Reclamation Facility, 1194 Gulf Road, Elyria, Ohio 44035.

Each bidder shall submit with his bid the manufacturer's analyses of the material to be furnished.

Each bidder shall submit with his bid the Safety Data Sheets of the material to be furnished.

Additional Information:

City of Elyria, Ohio
Water Reclamation Facility
SPECIFICATIONS FOR POLYELECTROLYTES (POLYMER)
FOR SLUDGE CONDITIONING

ITEM TO BE PURCHASED FOR THE PERIOD OF APRIL 16, 2026 THROUGH APRIL 15, 2027.

The item to be purchased is an organic polyelectrolyte (polymer) for use as required by the City of Elyria at the Elyria Water Reclamation Facility, 1194 Gulf Road, Elyria, Ohio 44035.

A. PURPOSE:

The organic polyelectrolyte (polymer) will be used to condition anaerobically digested sludge, and may be used to condition a mixture of the anaerobically digested sludge and aluminum chlorohydrate (ACH) sludge from the Elyria Water Treatment Plant before dewatering by four (4) 2-meter belt presses at the Elyria Water Reclamation Facility, 1194 Gulf Road, Elyria, Ohio 44035.

B. APPROXIMATE QUANTITY:

It is estimated that 20,000 pounds of polymer will be required in the operation of the Elyria Water Reclamation Facility during the stated period.

Exact quantities cannot now be determined, but estimates are given above. Quantities listed may be increased or decreased to meet the requirements of the plant operations during the above period. A minimum is not guaranteed.

C. GENERAL INFORMATION:

The Elyria Water Reclamation Facility is equipped for using polymer in dry as well as in liquid form, however, presently the plant intends to use only dry polymer. The polymer feed system includes bag feeders, wetting devices, a mixing and aging tank, a feed tank, and polymer pumps.

D. DETAILED SPECIFICATIONS:

The polymer must be able to produce a sludge cake no less than twenty-five percent (25%) solids and with ninety-two percent (92%) solids capture.

Volume of sludge to be dewatered: Approximately 30,000 to 60,000 gallons/day

Type of Sludge: Sludge will be an anaerobically digested mixture of primary and secondary sludge.
During the course of the contact period, the sludge may be a mixture of anaerobically digested sludge from the Elyria Water Reclamation Facility and aluminum chlorohydrate (ACH) sludge from the Elyria Water Treatment Plant. The total amount of ACH sludge solids in the mixture may vary but will generally be 10% to 20% by weight.

Sludge Solids Concentration: 4% to 7%

Dewatering Duration: Sludge is to be dewatered for eight (8) hours per day, five (5) days a week for the contract period. (Sludge to be dewatered over the contracted period is approximately 6.5 to 11.7 million gallons).

E. BID EVALUATION:

The City of Elyria shall be the sole judge of whether the polymer to be supplied by the bidder meets the specific needs of the Elyria Water Reclamation Facility, and shall evaluate qualified bids on the basis of cost and compatibility. The City of Elyria reserves the right to accept or reject any or all bids. Only one (1) polymer shall be bid.

Representative samples of sludge will be furnished for bench testing. Tests can be conducted at the Elyria Water Reclamation Facility Laboratory; however, bidders should bring their own specialized testing equipment.

The bidder with the best bid in the City's opinion, prior to the award of the contract, will be initially requested to supply, at the expense of the Bidder, a small quantity (up to five bags each; weighing fifty to sixty (50-60) pounds) of polymer. The initial shipment will be used to conduct full scale dewatering by the City under actual operating conditions.

In the case of the proposed polymer does not succeed in dewatering sludge to the City's satisfaction, the City of Elyria, at its option, will call the next best bidder to evaluate the effectiveness of their polymer.

F. DELIVERY:

The polymer to be supplied under the terms of any contract resulting from this bid will be delivered as ordered by the Superintendent of the Elyria Water Reclamation Facility, or his representative, on an as-needed basis at the stated bid price F.O.B. to the Elyria Water Reclamation Facility, 1194 Gulf Road, Elyria, Ohio 44035.

Deliveries will be accepted between the hours of 7:00 a.m. and 1:00 p.m., Monday through Friday (Holidays excepted). The polymer shall be delivered in fifty to sixty (50-60) pound bags and shall be unloaded by the successful bidder at the Elyria Water Reclamation Facility Sludge Disposal Building. Safety Data Sheets (SDS) shall be provided with the initial delivery, and any time thereafter if there is a change in the polymer or the SDS.

The successful bidder shall indemnify and hold harmless the City of Elyria, its officials and employees from any and all causes of action, claims or suits which result from the acts or omissions of employees or agents of the City of Elyria, Ohio.

The successful bidder shall guarantee delivery of the polymer within the time they have stipulated on the completed bid form.

Notice of cancellation and/or rescheduling of deliveries by the successful bidder shall be made as soon as possible with the Elyria Water Reclamation Facility Superintendent, or his representative. The City of Elyria shall not be responsible for any delay resulting in a delay charge due to canceling and rescheduling deliveries by the successful bidder.

The City of Elyria shall not be responsible for any surcharges, such as for fuel price increases.

The successful bidder is advised not to make deliveries against purchase orders resulting from this bid until directed to do so by the Elyria Water Reclamation Facility Plant Superintendent, or his representative.

G. PRODUCT LIFE:

The organic polyelectrolyte (polymer) dry form shall remain in a uniform, stable condition for a minimum of six (6) months.

H. CANCELLATION OF CONTRACT:

The City of Elyria shall have the right to cancel a contract at any time during the contractual period if the polymer properties, polymer life, or delivery times of the polymer are not in accordance with the contract specifications, and the successful bidder is given notice in writing of such deficiencies and is afforded reasonable time to comply with the provisions of the contract, but fails to do so.

I. DELAY FOR CAUSES BEYOND CONTROL:

If the successful bidder is delayed in compliance with the terms of the contract by strikes, lockouts, fire, unusual delay by common carriers, unavoidable casualties, or any cause beyond the successful bidder's control, including orders, limitations or restrictions of any government agency having jurisdiction over the subject matter of the contract, or by delay authorized by the City of Elyria or by any cause for which the Plant Superintendent shall decide to justify the delay, then for all such delays and suspension, the successful bidder shall be allowed one calendar day extension beyond the time fixed for compliance with the terms of his contract for each and every calendar day of such delay so caused in the completion of the work, the same to be ascertained by the Plant Superintendent.

J. FAMILIARIZATION:

The bidder, before submitting a bid, shall carefully examine all bid documents, contract forms, and all other available information; may visit the site to make a thorough investigation of conditions and any and all equipment that may in any manner affect the use of the polymer; shall familiarize himself with federal, state, and local laws, ordinances, rules and regulations, which may in any way affect his performance under this contract; shall carefully coordinate his observations with the requirements of the contract documents. The bidder's obligations hereunder shall include, but not be limited to, making such investigations as the bidder may deem necessary to determine his bid price. Permission to make such investigations on the property of the Elyria Water Reclamation Facility must first be obtained from the Safety Service Director of the City of Elyria.

K. BILLING:

For billing purposes, the unit bid price will be used unless the successful bidder requests another method. However, the method must be approved by the City of Elyria.

L. BID INQUIRIES:

All questions regarding this bid should be submitted in writing to the Elyria Safety Service Director. Every effort will be made to answer questions in an expeditious manner. As a result of these questions, if in the opinion of the Safety Service Director it is determined that some additional information must be furnished, it will be made available to all parties submitting a bid as an addendum to the bid documents. The City of Elyria will not be responsible for any instructions and/or opinions that are not in writing.

M. BID FORM:

Each bidder must submit a fully completed and appropriately signed bid form attached herewith. Any and all calculations, where applicable, must accompany the bid form. Failure of any bidder to appropriately complete this form, may serve as grounds for rejection of the bid.

The unit price bid for this item shall be the net price per dry pound F.O.B. to the Elyria Water Reclamation Facility, 1194 Gulf Road, Elyria, Ohio 44035.

Each bidder shall submit with his bid the manufacturer's analyses of the material to be furnished.

Each bidder shall submit with his bid the Safety Data Sheets of the material to be furnished.

EQUAL EMPLOYMENT OPPORTUNITY CLAUSE

All public contracts hereinafter entered into by the City of Elyria in which the contract is in excess of fifty thousand dollars (\$50,000.00), or the contractor has reached a cumulative total of \$50,000.00 in contracts with the City during the fiscal year, shall incorporate an Equal Employment Opportunity Clause which shall read as follows:

During the performance of this contract, the contractor agrees as follows:

- 1.) The contractor shall not discriminate against any employee or applicant for employment because of race, religion, age, color, sex, national origin or handicap. The contractor shall take affirmative action to ensure that applicants are employed and that employees are treated without regard to race, religion, color, sex, national origin or handicap during employment.

As used herein, the word "treated" shall mean and include without limitation, the following:

Recruited: Whether in the form of rates of pay or other forms of compensation.

Selected for Training: Including apprenticeship, promoted, upgraded, transferred, laid-off and terminated.

The contractor agrees to and shall post in conspicuous places available to employees and applicants for employment, notices to be provided by the contracting officers setting forth the provisions of the non-discrimination clause.

- 2.) The contractor shall, in all solicitations or advertisement for employees placed by or on the behalf of the Contractor, state that all qualified applicants will receive consideration for employment without regard to race, religion, color, sex, national origin or handicap.
- 3.) The contractor shall, submit to the City, in writing, an affirmative action plan and shall furnish all information and reports required by the City or its representative pursuant to this chapter and permit access to the contractor's books, records, and accounts by the contracting agency and affirmative action officials for purposes of investigation to ascertain compliance with the Affirmative Action Program. The contractor may comply with the provisions of this section by doing one of the following:
 - a.) The contractor may submit its Affirmative Action Program in writing at the time of its submission of bid, **or**;

EEO form continued

- b.) The contractor may submit its Affirmative Action Program in writing prior to its submission of bid for pre-certification.
The contractor's Affirmative Action Program may be pre-certified upon the filing and approval of its Affirmative Action Program with the City's O.E.O. not more than six (6) months prior to its bid submission. Upon pre-certification, the contractor will be issued a pre-certification compliance number for its Affirmative Action Program, which may be used and referred to in any bid submission in the place of any other written requirement for Affirmative Action Program submission. It shall be the sole responsibility of the contractor to be re-certified upon the expiration of its pre-certification. Approved programs may be reviewed before any pre-certification expiration date.
- 4.) The contractor shall send to each labor union or representatives of workers with which he/she has a collective bargaining agreement or other contract or understanding, a notice advising the labor union or worker's representative of the contractor's commitments under the Equal Employment Opportunity Clause of the City of Elyria and shall post copies of the notice in conspicuous places available to employees and applicants for employment.
- 5.) The contractor shall take such action with respect to any subcontractor as the City of Elyria may direct a means of enforcing the provisions of the E.E.O. Clause including penalties and sanctions for non-compliance. Provided, however, that in the event the contractor becomes involved in or is threatened with litigation as a result of such direction by the City, the City will enter into such litigation as is necessary to protect the interests of the City and to effectuate the City's Equal Opportunity Program and in the case of contracts receiving federal assistance, the contractor or the City may request the United States to enter into such litigation to protect the interest of the United States.
- 6.) The contractor shall file and shall cause his/her subcontractors, if any, to file compliance reports with the City in the form and to the extent prescribed by the City or its representative. Compliance reports shall contain information as to the employment practices, policies, programs and statistics of the contract and subcontractor(s).
- 7.) The contractor shall include the provisions of the Equal Employment Opportunity Clause in every subcontract or purchase order so that such provisions will be binding upon each subcontractor and/or vendor.
- 8.) Refusal by the contractor or subcontractor to comply with any provision of this program as herein stated and described will subject the offending party to any or all of the following penalties:

EEO form continued

- a) Withholding of all future payments under the involved public contracts to the contractor in violation until it is determined the contractor or subcontractor is in compliance with the provision of this contract.
- b) Refusal of all future bids for any public contract with the City or any of its departments or divisions until such time as the contractor or subcontractor demonstrates that he/she has established and shall carry out the policies of the programs as herein outlined.
- c) Cancellation of the public contract and declaration of forfeiture of the performance bond.
- d) In cases in which there is a substantial or material violation or the threat of substantial or material violation of the compliance procedure or as may be provided by contract, appropriate proceedings may be brought to enforce these provisions, including the enjoining within applicable laws of contractors, subcontractors or other organizations, individuals, or groups who prevent directly or indirectly or seek to prevent directly or indirectly compliance with the policy as herein outlined.
